MICHAEL JACOBS
RIDGELAND SPECIALTY HARDWARE

Welcome to the Home Show! The committee works throughout the year brainstorming ideas to improve the show. Within the last year, we've come up with tons of positive changes, including a location and date change. We are always striving to increase participation with exhibitors and attendees. We've partnered with MS Public Broadcasting as a place to entertain their VIP's. We've partnered with Pacesetter Gallery to bring six artists on-site creating original artwork during the show. We've partnered with Up Da Bayou to offer shrimp and crawfish plates. We are also offering a chance to win a \$2500 cash and lots of other prizes for any attendee of the show that fills out a registration form.

This is my second Home Show to chair, even though Ridgeland Specialty Hardware has exhibited at the show for many years. I believe this year's show has more to offer someone looking to build or remodel than any other show we've produced. The exhibitors this year bring the latest products and services in the building industry. This show is perfect for home owners wanting to build new or to shop for a remodeling project.

Special thanks to The Home Show committee for giving us their time in making this show special – Rachel Williams/*Smart Choice MS* – Atmos Energy, Susan Hogue/*Stages Mississippi*, Nickie Morris/*Pure Air Consultants*, Martha Hill/*Earthscape Supply*, Kim Jent/*MS Housing Institute*, Neal Mashburn/*Atmos Energy*, Joel Waters/*MS Concrete Association*, Shelby Taylor/*Two Men and a Truck*, Martha Dunlap/*Cherokee Brick*, Chris Cockrell/*Jimmie Lyles Flooring*, and Stephen Nettles/*Stages Mississippi*. Your ideas are coming to life in this show!

Make sure to stop by and see me at the Ridgeland Specialty Hardware exhibit. I'd love to talk with you about the show or talk to you about hardware for your home!

– *Michael Jacobs*

It's not a dream home

without natural gas.

Whether it's heating your water, warming your home or helping you cook for family and friends, natural gas is the smart energy choice that saves you both time and money. It's also safer, more efficient and better for the environment than other traditional energy resources. So spend less energy powering your dream home — and more energy enjoying it. *Choose natural gas.*

5 Ways to JUMP START Your Home Remodel

After spending more time at home, over the last several years, you may be ready to change the look and feel of your house. Perhaps you are ready to upgrade your kitchen or add more space. Whatever the impetus, the thought crosses your mind: Maybe it's time to start a home remodel. If you are having trouble figuring out how to approach your remodel, consider the following five simple steps to jump start the process.

Step 1: Gather Ideas

The first step is to develop an idea of what you want to do with your home remodel. Next, write a prioritized list of your needs and wants. There are many sources to find design ideas for your home remodeling project. Look at magazines and websites and collect pictures of homes or remodeling projects you like. The more clearly you can envision the project and describe it on paper, the better prepared you'll be in making your decision.

Step 2: Consider How You Utilize Your Space

Think about traffic patterns, furniture size and placement, colors, lighting and how you expect to use the remodeled space. If your decision to remodel involves creating better access for someone with limited mobility, you may consider contacting a Certified Aging-in-Place Specialist.

Step 3: Consider Home Energy Efficiency

You may want to improve home efficiency and hire a professional remodeler for green home remodeling. These projects include replacing windows and doors, upgrading heating and cooling systems, adding insulation, and other updates to make the home more energy-efficient, easier to maintain, and more comfortable.

Step 4: Think About Your Budget

Figure out how much money you have to spend on the home remodeling job, furnishings, landscaping or any other cost you might incur. There are several remodeling cost calculators online to give you a general idea of how much your home improvement may be.

Step 5: Find a Qualified Professional

Whether your remodeling project is large or small, it's important to carefully think through your options and talk to several remodelers before you get started. Hiring a professional remodeler is the best way to ensure your project's success. These remodelers are dedicated to maintaining the highest integrity and standards in the industry.

To find a professional remodeler in your community, visit HBAJACKSON.COM for the local membership directory.

Renasant Mortgage offers a Construction-to-Permanent product that allows your lot, construction, and mortgage financing covered in a single loan. Borrower-financed construction offers home-buyers the ability to customize the home of their dreams.

SMART HOMES**

Free Assessments | www.mssmarthomes.com | 601-749-1843

Mississippi Smart Homes is a company that focuses on installing customized smart home technology into buildings of all sizes. We work with our clients to assess the technology they already have, plan for the things they need, set up/link everything, and educate them on how to use it all. We realize that none of it matters if you aren't comfortable using the technology and want our clients to maximize the use of each product so we put a strong emphasis on educating our clients about the products.

By the time that we are finished, you will have the equipment and understanding that you need to use it to better your quality of life.

5 Simple and Stylish Home Design Ideas

CHRIS ALLEN
HBAJ SECRETARY/ TREASURER
CA CONSTRUCTION

Do you spend lazy Saturday afternoons browsing online, or watching your favorite design program on TV and wishing you had the budget to hire an interior designer to replicate their artistic interiors? Well-designed rooms don't always have to come with a huge price tag; designing on a budget may be easier than you think. Many times, by changing small things, a room can take on an entirely new personality.

"Less is more" minimalism is a design trend that can help homes look nice with minimal intervention. A style that can help to destress users and make them easily relax in any space. The good thing about minimalism is that it can be coupled with any other design style and achieve the required outcome. So, whether that is a Boho style or industrial, all of these can be coupled up with a minimalistic look to give the desired stylish effect.

Nowadays, minimalism is recognized and followed by many influencers and can easily be achieved on a budget. Consider the following when incorporating minimalist design ideas.

Tell a Story. Minimalism tends to be simple, and yet adding a few personal touches into any space can make it burst with life and become more characteristic while reflecting the real personality of the user.

Incorporate Natural Light. Let sunlight inside the designated room. Natural light will always enhance an interior space. However, if the area has no good exposure to sunlight, it can be fixed using other artificial light elements. Lighting makes the space more cheerful and it can also make any room look bigger and more welcoming.

Keep Color in Mind. Introduce the right color palette. Even when using a neutral palette, adding a few subtle tones can help create more harmony in the space. Neutral hues are always easy on the eyes and create a relaxing, cozy feel.

Add Greenery. Using plants in any space gives it a fresh oasis-like feel. An important factor is to keep the plants healthy enough to stay green and lush. For this reason, many designers use artificial plants in a minimalistic design, because of their ease of care and consistency.

Create an Organized Space. Decluttering is an essential feature of any minimalistic design. To create a stress-free space, ensure it is clean and well-organized. The importance of this is backed up by science, many studies show that cluttered and messy homes are linked to higher stress levels.

To help find interior designer near you or a qualified professional if you're interested in home renovations, visit HBAJACKSON.COM.

Loans are subject to credit review and approval. Fixed- and adjustable-rate purchase and construction loans listed require a minimum 5% down payment. Closing costs may apply. A sample principal and interest payment on a (7)-year \$500,000 adjustable-rate loan amount with a 6.875% interest rate (6.996% APR) is \$7,515.52. Taxes and insurance are not included; therefore, the actual payment obligation will be greater. Actual interest rate may vary based on credit history. Visit libertyfcu.org/mortgage-calculator to calculate payments with other terms, balances, or rate. Fees or other conditions could reduce earnings on the account. (1) Rate Match restrictions apply. (2) Gift card offer is available on financing of purchase or construction loans for primary residences only. Purchase or construction loan amounts up to \$149,999 will receive a \$500 gift card. Purchase or construction loan amounts of \$150,000 or greater will receive a \$500 gift card. Not valid in combination with any other offer. Liberty FCU mortgage lending product availability may vary based on property location.
